

High School Project Based Learning (PBL) Weekly Update # 2

Everyone is encouraged to visit [Project Based Learning | BIE](#).

Begin with clicking on “**Why Project Based Learning (PBL)?** Please read through the many reasons and be sure to click [deeper learning](#) as it is one of the fundamental reasons why projects are so effective while teaching a diverse student population.

Find: **What is Project Based Learning (PBL)?** For a project to be considered a **Gold Standard PBL**, it must include the Essential Project Design Elements mentioned on this page.

Last week’s weekly update recommended that Career Specialist’s consider using the [JAG PBL Menu-Career Association](#).

One great feature of the **PBL Menu-Career Association** is the **Scaffolding or Management of the Process**. The headings include: **Prior to the Project Beginning, Launching the Project and Project Navigation**.

These include **scaffolding lessons, exercises and activities and often refer to JMG/JAG competency-based lesson plans and/or the Career Association Handbook: [MCA Student Manual](#)** as needed resources.
